REPORT.

In presenting this, the Fifth Annual Report of the St. Mary's Hospital, to the public, we avail ourselves of the opportunity to express our gratitude to Almighty God, for the success attending our labors during the past year. Seven hundred and forty-seven sick and wounded were admitted and treated—the largest number yet received in one year. To care for so large a number, the Hospital was taxed beyond its capacity, and yet many poor sick were refused for want of room. It is a matter of regret that the building is not much larger, in order that we might be able to give succor to all who would wish to enter.

Two lectures were delivered during the year, in aid of the Hospital, and we gladly give expression here to our gratitude to the Hon. Prof. HALDEMAN, and to the Hon. B. H. BREWSTER, for their kindness in assisting the Institution in this manner. We have also to record the gratifying fact of several small legacies having been left to the Hospital. For these benefactors who kindly remembered the Institution in their wills, we shall ever pray to God to give them eternal peace and rest. In thus appropriating a portion of their worldly wealth to the relief of the suffering poor in our Hospital, they were indeed mindful of Christ's injunction "to lay up for yourselves treasures in heaven, where the moth gnaweth not, and the rust eateth not." *Mathew, chap. vi, verse 20.*

Three hundred and ten poor, sick, homeless and destitute creatures found a bed, good nursing and skillful medical treatment during the past year, in the St. Mary's Hospital. Some recovered, and some died and were interred at the expense of the Institution. Upon what greater charity can the human heart bestow its sympathies, than upon the abandoned, destitute sick, whose pestilent breath the world flies, and who, wearied out with disease, and crushed in despair, wait longingly for the hour when the summons shall come! To succor these, to warm and clothe them, to feed and nurse them, and to make them feel that all this is done through love of Christ, is a noble work indeed; a noble work, in which the poor Sisters of St. Francis are but the humble instruments—but the glory and blessings of which, belong to the generous and noble persons who have given them so liberally of their means to do it.

Excepting the board paid by pay patients, it is well known that the Hospital has no revenue or income, but that which is collected from day to day, by the Sisters, from the charitable. In order, therefore, to give the Hospital a more certain support, and to relieve the Sisters, in part at least, of the onerous duty of collecting from door to door, the following plan is proposed, which, it is hoped, the friends of the Hospital will endeavor to make successful.

1 *Any one contributing five dollars, and promising to pay annually thereafter, the same sum, will be placed on the list of annual Contributors, whose names will be published annually with the Hospital Report.*

2 *Any person contributing twenty-five dollars annually, will have the privilege of having two poor persons under treatment at the same time, in the Dispensary department.*

3 *Any person contributing fifty dollars, will have his name recorded upon the list of Life Contributors, whose names will be published annually.*

4 *Any person contributing two hundred and fifty dollars, will be entitled to the use of one bed in the Hospital for one year.*

5 *Any person contributing four thousand dollars, will be entitled to the use of one bed in the Hospital during the term of his life.*

6 *Any person contributing ten thousand dollars, will be entitled to the use of four beds during the term of his life, and will have one ward named after him.*

7 *Any person of the laboring classes, male or female, in good health, contributing fifty cents a month, will, six months after the first payment, be entitled, when sick, to good nursing and medical treatment in the Hospital, until cured, or until pronounced incurable.**

To those who may wish to remember the Hospital by will, we would direct attention to the Form of Bequest printed at page 5.

To the many kind friends who have ever responded so cheerfully and willingly to our appeals for aid, and to the faithful physicians who have labored so zealously, and to all others who have in any way assisted us, we extend our warmest thanks, and pray Almighty God to bless them; for He has said: "Whosoever shall give you to drink, a cup of water in my name; because you belong to Christ; Amen, I say to you, he shall not lose his reward." *Mark, chap. ix, verse 40.*

MARY AGNES, *Superior,*
O. S. F.

NOTICE—Persons wishing to contribute articles or money, will please send them to the Sister Servant-in-charge, at the Hospital.

Persons wishing Sister Nurses at their homes, will make application at 501 Reed Street.

* All contributions must be given or directed only to the Sister Servant-in-charge, at St. MARY'S HOSPITAL, Frankford Road & Palmer Street, Philadelphia.

FORM OF BEQUEST.

I give, devise and bequeath unto "The Sisters of St. Francis, of Philadelphia," (here mention the amount or character of the bequest) to be applied by them, to the maintenance, support and benefit of the hospital known as St. Mary's Hospital, situated in the City of Philadelphia.

NOTICE—No one is authorized to collect for the Hospital, except the Sisters of St. Francis, and the public is hereby cautioned not to give to any one assuming to collect in their name.

MEDICAL REPORT.

TO THE SUPERIORESS OF THE SISTERS OF ST. FRANCIS:

I have the honor of submitting to you the following summary of the cases treated in the St. Mary's Hospital, Philadelphia, during the past year.

Patients admitted during 1872,	747
“ discharged Cured,	386
“ “ Improved,	164
“ “ Unimproved,	29
“ died,	105
“ remaining,	63
Remaining over from 1871,	39
Old people “ “ “ “	20
	59

Whole number of persons treated and supported } during the year,	806
Increase in the number of admissions over the previous year,	177

The causes of death were 31, viz:

Adenitis, 1	Fever, (Typhoid), 9	Old Age, 3
Albuminuria, 1	Com. Frac. of Leg, 1	Paraplegia, 1
Alcoholism, 7	Frac. of both Legs, 1	Phthisis, 32
Amputation of Leg, 1	“ Skull, (with	Pneumonia, 4
Anæmia, 1	compr'n of Brain), 1	Purpura Hæmor-
Asthma, 1	Gangrene of Foot, 1	rhagica, 1
Burn, 7	Gastritis, 1	Rheumatism, 2
Cancer, 3	Heart Disease, 4	Soft'g of the Brain, 1
Compress'n of Brain, 1	Hernia, (strang'l'd) 1	Variola Hæmor-
Diarrhœa, 2	Internal Injuries, 1	rhagica, 1
Dysentery, 2	Icterus, 1	Unclassified, 10
Erysipelas, 2	Meningitis, 1	

The percentage of deaths for the year, is 13.02, an increase over the percentage of 1871, which was 11.62, and a slight decrease over that of 1870, which was 14.84.

Nativities of patients:

Born in Ireland, 281; Germany, 275; United States, 155; other Countries, 36. Total, 747

Sex and social condition—Males, 476; Females, 271; Married, 333; Single, 414.

Of the seven hundred and forty-seven patients admitted, there were 342 who paid board, 95 Society patients, and 310 Charity patients.

Accident cases admitted and treated, ninety-six, (96).

RECAPITULATION :—

Number of patients admitted

From July 1, 1867, to Dec. 31, 1868,	461
Jan. 1, 1869, “ “ 1869,	366
“ 1870, “ “ 1870,	513
“ 1871, “ “ 1871,	570
“ 1872, “ “ 1872,	747

Whole number of admissions, 2657

Of these there were discharged, Cured, 1439; Improved, 457;
Unimproved, 166; Died, 398.

1098 were born in Germany, 969 in Ireland, 459 in the United States, and 131 in other countries.

886 paid board, 464 were Society patients, 1218, charity patients.

DISPENSARY DEPARTMENT

OF THE

ST. MARY'S HOSPITAL.

Number of visits made by patients during 1872, 10,379
“ new patients treated, 4,616

Of these there were 1225 males, 1848 females, and 1543 children.

Patients born in the United States,	2483
“ “ Germany,	387
“ “ Ireland,	1473
“ “ other countries,	279

Increase in the number of new patients over the previous year, 66

Accident cases, 214

Prescriptions filled, 9,787

RECAPITULATION OF DISPENSARY DEPARTMENT :—

	NUMBER TREATED.	PATIENTS.	VISITS.
From Oct. 1868, to Dec. 31, 1869,		1,517	3,950
Jan. 1870, to “ 1870,		2,587	8,601
“ 1871, to “ 1871,		4,550	10,403
“ 1872, to “ 1872,		4,616	10,379

Total number, 13,270 33,333

“ “ of patients treated in both Hospital and Dispensary,
from their beginning, 15,927.

During the year, there was one resignation from the medical staff, Dr. L. S. Bolles being obliged, through ill health, to resign his position, and Dr. Andrew Nebinger was appointed to fill his place.

As will be noticed above, the number of persons admitted and treated during 1872, in the Hospital, is largely in excess of any previous year; and necessarily the wards have been kept in a crowded condition; and, indeed, have been oftentimes too full for the com-

fort and proper treatment of the inmates. The demands made upon the Hospital have been far in excess of its ability to accommodate ; as many as two per day, on an average, having been turned away for want of room. This speaks for the great necessity which exists for the erection of a larger building ; and the defects of the present accommodations, referred to in previous reports, plead still more strongly for a building designed especially for the accommodation of the sick, and provided with all the conveniences and appliances so necessary in the treatment of so large a number of persons. It is earnestly to be hoped that the St. Mary's Hospital, which has already earned so good a name, with the little means afforded her, may not be permitted to languish for the want of that which is so much needed to place her on a footing with her sister institutions. During the past few months, we have witnessed the munificent endowment of two other hospitals in this city ; one receiving the princely sum of \$300,000 from one gentleman alone, besides other sums, making an aggregate of \$500,000: the other receiving from the State and Municipal authorities, as well as from private individuals, about the same amount. But if these institutions should receive such noble endowments to assist them to fulfil their aims, having no previous history of work done and good accomplished, how confidently should the St. Mary's appeal to the generous and benevolent citizens, as well as to their representatives in the Legislature and City Councils, with her record of nearly *sixteen thousand* patients treated !

Thus far, the Hospital has failed to obtain a single cent from the Legislature, which yearly appropriates money to various institutions throughout the State, having no greater claim to its aid than the St. Mary's. It is to be hoped that in future, no discrimination will be made against this hospital, when the appropriations are made to public charities.

The Dispensary Department showed, during the past year, the same activity as the previous year, there being a slight increase in the number of new patients treated, and a small decrease in the number of visits made. This may be attributed in part to the limited accommodations afforded both the patients and the visiting physicians, and in part also to the want of funds, necessitating a restriction to be imposed upon the dispensing of medicines, the gratuitous giving of which has been limited to poor widows and orphan children only. It is to be regretted that the Institution is not able to remove these restrictions, and to give alike to all who come.

Respectfully submitted,

J. CUMMISKEY,

Physician-in-Chief.

Vaccination.	{	}

Dispensary Assistants—The resident Surgeons.

HOSPITAL RULES.

All applications for the admission of patients, must be made at the Hospital only.

Neither insane persons, nor those affected with contagious diseases, will, under any circumstances, be admitted.

Serious accident cases will be received without charge, if brought within twenty-four hours after the reception of the injury. Such cases, however, AS MAY BE ABLE TO DEFRAY THE EXPENSES of their treatment, will be required to do so. The Institution cannot afford to extend its gratuitous aid beyond the truly needy.

Pay patients will, BEFORE ADMISSION, be required to pay two weeks' board in advance, and to assure its prompt payment thereafter at the close of each week. Sufficient under-clothing should be provided in order that a clean condition may be maintained.

Charity patients will always be warmly welcomed. When these are without relations or friends, the Hospital will provide for them, and in case of death, inter them decently. Where they have relatives and friends, however, it will be necessary that provision be made for their removal, should they be found incurable, or in case of death, to inter them.

RULES FOR VISITORS.

Visiting days—Sunday and Thursday afternoons, from 2 until 5 o'clock. In extreme cases only, will friends be allowed access to the Wards on other days.

All visitors must obtain permission of the Sister-in-charge, to visit either the patients or Hospital.

Visitors are requested for obvious reasons, to make their stay as brief as possible, and endeavor, as far as they can, to avoid loud talking, and in other ways, annoying the neighboring patients.

Visitors are cautioned not to introduce food or drinks to the sick, without the consent of the ward-sister, as much injury might thereby follow.

RULES FOR PATIENTS.

Patients are not to leave their own wards, nor to visit the other wards without the permission of the ward-sister.

Patients are to keep quiet—to be respectful to the nurses and physicians—to assist in executing the directions of the physicians as far as possible—to talk in a low tone, and to avoid, as much as they can, disturbing those around them.

Patients wishing "leave of absence," will apply for such, to the Resident Physician, and, leave being granted, they must return by 6 o'clock, P. M.
